

## Floor Stripper #8

### 1: Identification of the material and supplier

**Product Identifier** Floor Stripper #8

**Other Means of Identification**

**Recommended Use** Heavy Duty Floor Stripper

Supplier	Organisation	Location	Contact Information
	Wirrpanda Supplies Pty Ltd	15 Howe Street	Phone: 131 808
	ABN: 50 672 225 044	Osborne Park WA 6017	E-Mail: sales@wirrpandasupplies.com.au
			Web: www.wirrpandasupplies.com.au

**Emergency Phone Number** Poisons Information Centre (Australia) 13 11 26

### 2: Hazardous Identification

Classified as hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) criteria Safe Work Australia and classified as a non-dangerous good according to Australian Dangerous Goods Code.

**GHS Classification** Skin corrosion category 1  
Eye damage category 1

**Signal Word** Danger

**Hazardous Statement(s)** Causes severe skin burns and eye damage

**Precautionary Statement(s)** Wear protective eyewear, gloves and clothing. Wash hands thoroughly after handling. IF SWALLOWED: Rinse mouth. DO NOT induce vomiting. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse. IF INHALED: Remove victim to fresh air and keep at rest in a comfortable position for breathing. Immediately call a POISON CENTRE or doctor. Store locked up. Dispose of contents in accordance with local regulations.

### 3: Composition/Information on Ingredients

Ingredient	CAS Number	Proportion (% w/w)
2-Butoxyethanol	111-76-2	10%-30%
Ethanolamine	141-43-5	10%-30%
Non-hazardous ingredients	-	to 100%

## 4: First Aid Measures

<b>General</b>	For advice, contact a Poisons Information Centre (Australia 13 11 26) or a doctor.
<b>Ingestion</b>	If swallowed, DO NOT induce vomiting. If person is conscious, rinse mouth thoroughly with water first then give a glass of water to drink. If vomiting occurs, wash out mouth again with water and give another glass of water to drink. Seek medical attention if irritation persists.
<b>Eyes</b>	If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre (Australia 13 11 26) or by a doctor, or for at least 15 minutes.
<b>Skin</b>	If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.
<b>Inhalation</b>	If swallowed or inhaled, remove from contaminated area. Apply artificial respiration if not breathing. Do not give direct mouth-to-mouth resuscitation. To protect rescuer, use air-viva, oxy-viva or one-way mask. Resuscitate in a well-ventilated area.
<b>Symptoms Caused by Exposure</b>	Please refer to Section 11- Toxicological Information.
<b>Medical Attention and Special Treatment</b>	Treat symptomatically.

## 5: Fire Fighting Measures

<b>Suitable Extinguishing Equipment</b>	Material itself is not combustible. Extinguish fire using agent suitable for type of surrounding fire. Use foam, dry chemical or carbon dioxide. Keep run-off water out of sewers and water sources.
<b>Specific Hazards Arising from the Chemical</b>	When heated to decomposition will produce irritating fumes.
<b>Special Protective Equipment and Precautions for Fire Fighters</b>	Use water spray to keep fire-exposed containers cool. The following protective equipment for fire fighters is recommended when this material is present in the area of a fire. Liquid-tight chemical protective suit with breathing apparatus.
<b>Hazchem Code</b>	Not applicable

## 6: Accidental Release Measures

<b>Personal Precautions</b>	Surfaces may be slippery. Increase ventilation. Wear PPE in accordance with section 8. Stop leak if safe to do so. Isolate the spill area. Keep unnecessary personnel away. Clean up
-----------------------------	--

## Environmental Precautions

immediately to avoid accidents.

Do NOT allow spilled concentrated product to enter drains, sewers, creeks, dams, rivers or waterways.

## Spills and Disposal

### Small Spills

Mop or wipe up with a rag or paper towel and dispose of in the rubbish. Wash down surface with water.

### Large Spills

Contain, collect and recycle spilt product if possible otherwise absorb spill with material such as soil, sand, attapulgate, vermiculite. Collect and seal in properly labelled, chemical resistant containers. Wash area with water. Seek disposal.

## 7: Handling and Storage

### Precautions for Safe Handling

Wash hands after use. Minimise direct contact with product. Wear PPE in accordance with label or section 8.

### Conditions for Safe Storage

Always replace lid on container after use. Store in a cool dry place out of direct sunlight and out of reach of children.

## 8: Exposure Controls – Personal Protection

### National Exposure Standards

TWA of 121 mg/m<sup>3</sup> as 2-Butoxyethanol

### Engineering Controls

Avoid generation and inhalation of mists and aerosols

### Personal Protection

#### Eyes/Face

Safety glasses

#### Hands

Rubber gloves

#### Skin

Overall and chemical resistant boots

#### Respiratory

Where mist or vapour is a problem use a respirator

## 9: Physical and Chemical Properties

### Appearance

Clear green/yellow liquid

### Odour

Glycol

### pH

11-12

### Vapour Pressure

No data available

### Vapour Density

No data available

### Flash Point

No data available

### Flammability Limits

Not flammable

### Boiling Point

<0°C

### Melting Point

>100°C

### Specific Gravity

0.9-1.0

### Solubility

Soluble in water

## 10: Stability and Reactivity

<b>Chemical Stability</b>	The product is stable under normal conditions.
<b>Possibility of Hazardous Reaction</b>	No hazardous reactions expected when handled in accordance with label directions.
<b>Conditions to Avoid</b>	Avoid extreme heat and high temperatures.
<b>Incompatible Materials</b>	Strong oxidizing agents.
<b>Hazardous Decomposition Products</b>	None known.

## 11: Toxicological Information

<b>Ingestion</b>	LD50 >8000mg/kg (product). Ingestion causes severe damage to the mucous membranes or other tissue with which contact is made. It can cause perforation and scarring.
<b>Eye</b>	Rabbit 200 mg/24h severe. Corrosive to the eye. Permanent eye damage, including loss of sight, may occur.
<b>Skin</b>	Highly corrosive to skin. Irritant dermatitis may result from working with this material. Prolonged skin exposure can cause reddening of the skin, pain, rash, dermatitis and possible burns. Prolonged or repeated contact may result in ulceration.
<b>Inhalation</b>	Inhalation LC50 (rat): 2000-2500 ppm/4h. Over exposure may result in mucous membrane irritation of the respiratory tract, coughing and possible burns. High level exposure may result in ulceration of the respiratory tract and breathing difficulties.

## 12: Ecological Information

<b>Ecotoxicity</b>	Water flea (Daphnia magna) 24-h LC50 5000mg/L White shrimp (Penaeus setiferus) 96-h LC50 565mg/L
<b>Persistence/Degradability</b>	Classified as inherently biodegradable according to AS4351
<b>Bio-accumulative Potential</b>	Product has limited potential to bio-accumulate
<b>Mobility in Soil</b>	No data available

## 13: Disposal Considerations

<b>Disposal Methods</b>	The most effective way to dispose of product is to use as was originally intended, in accordance with label instructions. If disposal of large volumes of unwanted or excess product is required, either supply to product to someone who can use it in accordance with label instructions or contact your local council and/or state environmental authority for advice. Dispose of in accordance with Local, State and Federal regulations. Drain containers thoroughly and rinse empty containers with water and use the solution in accordance with label instructions. Recycle packaging at an approved collection point or recycling facility.
-------------------------	--

## 14: Transport Information

<b>UN Number</b>	Not applicable
------------------	----------------

Shipping Name	Not applicable
Class	Not applicable
Subsidiary Risk	Not applicable
Packing Group	Not applicable
Special Precautions For Users	Ensure containers are clearly labelled. Keep containers securely sealed and protected against physical damage.
Hazchem Code	Not applicable
IERG Number	Not applicable

## 15: Regulatory Information

Packaging & Labelling	This product is a Scheduled Poison (S6) and must therefore be stored, maintained and used in accordance with the relevant State Poisons Act. Defined as a "Dangerous Good by the Australian Code for the Transport of Dangerous Goods by Road and Rail.
-----------------------	---
